RULES.

GENERAL.

1. Works of local boards shall consist of two classes, namely, original works and repairs; the first shall include new works, alterations, additions and purchases, and the second, repairs and maintenance. All works necessary to bring into use newly purchased or previously abandoned buildings and

works, though replacing an existing structure but that add to the permanent value of the property shall be classified as original works while others which are required to maintain in proper condition buildings and works in ordinary use shall be covered under 'repairs'.

SECTION I—ALLOTMENT AND PREPARATION OF ESTIMATES.

A. Allotment of Funds.

3. Allotment of a particular sum of money to meet expenditure on a specified object is a provision for a financial year as being sanctioned by the local board under section 118 (2) of the Act. No expenditure on works shall be incurred unless there is a proper allotment of funds made by competent authority.

3. The District Engineer shall be responsible for any expenditure incurred on works for which there is no allotment or sufficient allotment sanctioned by competent authority.

4. The District Engineer shall forward each year to the president, local board, before the presentation of the budget, a statement of the works on which expenditure is necessary during the ensuing year, and the funds required under each head of account to which the proposed expenditure on works will have to be debited.

5. The maximum allotment available for road maintenance works under a local board shall be recommended by the president to the District Engineer and the final distribution of the allotment for each road shall rest with the District Engineer subject to the following conditions—

(1) that no expenditure is incurred on any work in excess of the amount specified in the statement forwarded by the Engineer;

(2) that the reappropriation made by the District Engineer has not the effect of increasing the expenditure on or from the provision for which has been specifically refused by the board; and

(3) that no expenditure is incurred on any work which is not included in the statement furnished by the District Engineer and accepted by the board.

B. Acquisition of Land.

6. No work shall be commenced on land unless it has been ascertained that it belongs to the local board or acquired for the local board.

C. Estimates.

7. The proposals be submitted with the project for a work shall consist of a report, a specification and a detailed statement of measurements, quantities and rates, with an abstract showing the total estimated cost in respect of each item. These documents form what is called the estimate in the name of these rules. The form of the abstract will depend on the method proposed for the execution of the work. If it is intended to purchase or to supply materials and to employ labour for execution separately (whether by contract or departmental agency), the abstract of the estimate should be so framed as to show separately for each distinct item of labour work (1) the cost and quantity of labour and (2) the cost of materials. But if this is not the case, e.g., when any item of work is to be executed by contract and it is proposed to contract for the completed item of work, the abstract of the estimate may show merely the quantity and cost of each item of work. In the case of a project consisting of several works, the report may be a single

document for all the works and likewise the specifications; but details of measurements and abstracts may, conveniently be prepared for each work, supplemented by a general abstract bringing the whole together. In the case of estimate for 'Repairs' or 'Maintenance', only the specifications and the detailed statement of measurements and quantities with the abstract will ordinarily be prepared. The report should state clearly the purpose of the work estimated for, and explain any peculiarities which require attention, including where necessary, the reasons for the adoption of the estimated project or design in preference to others.

8. No work shall be commenced unless an estimate in proper form has been prepared and sanctioned by competent authority. In the case of works executed under the written order of the president of a local board under section 27 of the Act detailed estimates shall be submitted to the authority competent to sanction the same within three days from the date of such order.

9. The District Engineer shall be responsible for the accuracy and completeness of all drawings and estimates submitted to him, and when the District Engineer is competent to deal with, whether prepared by himself or his subordinates, every estimate shall therefore be signed by him before it is submitted for sanction.

10. Assistant Engineers in charge of divisions may, on the recommendation of the District Engineer, be empowered by the local board to accept estimates approved in works of repair and maintenance. He shall maintain a register showing in serial order all estimates sanctioned by him and communicate copies of such sanctions to the District Engineer.

11. The District Engineer shall submit the estimate after being signed by him to the president of the local board concerned.

12. The District Engineer shall maintain a register showing in serial order all such estimates submitted by him.

13. The estimate on receipt to a local board shall be thoroughly scrutinized by its chief municipal officer or reports made with the schedule of rates and road and rate book.

14. All plans and estimates for sanitary works costing Rs 25,000 or less shall be prepared by the District Engineer of the local board concerned in consultation with the District Health Officer and the Deputy Sanitary Engineer of the division.

Plans and estimates costing over Rs 25,000 shall be prepared by the Sanitary Engineer.

Prices.—Nothing in this rule shall prevent local boards from preparing estimates on the designs for any amount. They may also prepare plans and estimates exceeding Rs 25,000 if the component parts are of similar design and are estimated to cost not more than Rs 25,000 each, e.g., a market with six similar stalls costing say Rs 4,000 each.

Expenditure.—The term 'sanitary works' includes (1) hospitals, dispensaries, mortuaries, slaughter-houses, model huts for scavenging, latrines, incinerators, urinals, septic tanks, cesspools, sewage apparatus, sewage tanks and pumping plants.

(2) Works including buildings connected with water supply.

(3) Works including buildings connected with drainage.

Notes.—The above explanation does not exhaust but merely indicates examples of works which fall under the category of sanitary works.

with the provisions of rules regarding execution of agreements.

34. One of the following agencies shall be utilized for the execution of work:—

- (a) The Public Works Department of Government.
- (b) The local civil engineering establishment.
- (c) Miscellaneous agencies.

A. Public Works Department.

35. All important works which require technical skill of a high order and works which could be executed more cheaply and efficiently by means of its special and superior equipment, shall be entrusted to the Public Works Department of Government.

38. Estimates in respect of district board works entrusted to miscellaneous agencies shall be prepared and counterchecked by the District Engineer or under his orders by the Assistant Engineer in charge of a district.

39. In the case of a tank board which maintains separate engineering establishment the engineer or the Assistant Engineer as the case may be shall prepare estimates for work up to an amount not exceeding Rs. 500. Other estimates shall be dealt with in the same way as those relating to district board works.

40. No work costing more than Rs. 1,000 in the case of original works and Rs. 5,000 under repairs shall be entrusted to the miscellaneous agencies for execution.

43. After an estimate has been sanctioned by the specified authority the District Engineer shall be responsible to ascertain all variations in respect of all local fund works executed by the district engineering establishment including the tank board engineering establishment whenever it occurs, when the savings or excesses do not exceed 5 per cent of the total amount of the estimate provided that it either does not exceed 10 per cent of the sanctioned design. In other cases the sanction for revision shall be obtained by submission of one of the following documents and giving the sanction of the local board.

In the case of petty works, i.e., works costing not more than Rs. 100 not executed departmentally and with regard to which measurements are not feasible, payments may be made on the estimate of the District Engineer that the work done is worth the amount claimed.

49. The measurement of every work and all material received, recorded by a subordinate shall be checked and verified by at least one superior authority in the engineering establishment.

50. No final payment shall be made for a work before it has been checked measured and the fact certified to by the check measuring officer in the measurement book and the sanction authority.

(d) The carrying out of any additional work from sanction under other sub-heads for which there is no open provision in the original estimate has which is fairly met under a proper sanction of the project as projected.

RULES.

BUDGET OF MUNICIPAL COUNCILS.

Preparation of the Budget.

1. The Chairman shall in each year prepare a budget estimate showing the probable receipts and expenditure during the ensuing year. He shall consult the Director of Public Instruction, the Director of Public Health, the Director of Town Planning and the Director of Public Works in respect of matters concerning those departments.

2. The working balance to be provided for in the budget shall not be less than five per cent of the estimated receipts of the year ending three

appertaining to endowments, pensions, grants and debt funds.

3 The budget shall be prepared in form A appended to these rules.

Preparation of the Budget.

4 The budget prepared in the manner laid down above shall be delivered to the Council by the budget committee, if any, of the Council, to be placed before the Council by the Chairman not later than the 15th of December.

Sanctioning of the Budget.

6 The Council shall satisfy itself on the following points before it sanctions the budget with such modifications as it may deem necessary:—
